DigiPay Commission Chart 2026:

The following AEPS figures are based on publicly available DigiPay commission schedules. They show the **gross VLE commission, 5% TDS and approximate net commission**.

AEPS Transaction Amount	Gross Commission	TDS 5%	Approx. Net Commission
₹100–₹499	₹0.32	₹0.00	₹0.32
₹500–₹999	₹1.44	₹0.07	₹1.37
₹1,000–₹1,499	₹3.04	₹0.15	₹2.89
₹1,500–₹1,999	₹4.64	₹0.23	₹4.41
₹2,000–₹2,499	₹6.24	₹0.31	₹5.93
₹2,500–₹2,999	₹8.80	₹0.44	₹8.36
₹3,000–₹6,999	₹11.32	₹0.57	₹10.75
₹7,000–₹10,000	₹9.12	₹0.46	₹8.66

These figures are consistent with a publicly indexed 2026 DigiPay commission chart.

AEPS Commission at a Glance:

The chart shows that the commission is **not necessarily a simple percentage of the withdrawal amount**. Instead, DigiPay AEPS remuneration can operate through transaction-value slabs.

For example, a ₹5,000 withdrawal falls in the ₹3,000–₹6,999 slab, where the referenced **gross commission** is ₹11.32, and the approximate amount after 5% TDS is ₹10.75.

DigiPay AEPS Commission 2026

AEPS (Aadhaar Enabled Payment System) is one of the major services through which DigiPay VLEs can earn transaction-based income.

A customer can use an Aadhaar-linked bank account to access eligible banking services through an authorised service point.

Common AEPS services include:

AEPS Service	Available through DigiPay
Cash withdrawal	Yes
Balance enquiry	Yes
Mini statement	Yes
Aadhaar-based banking	Yes
Cash deposit	Supported

AEPS Service	Available through DigiPay
Micro ATM services	Supported

The current DigiPay app specifically lists Aadhaar-based cash withdrawal, cash deposit, balance enquiry, and mini statement among its services.

DigiPay Cash Withdrawal Commission

Cash withdrawal is one of the most searched DigiPay earning categories.

Based on the referenced commission schedule:

Withdrawal Amount	Gross VLE Commission	5% TDS	Net Commission
₹100–₹499	₹0.32	₹0.00	₹0.32
₹500–₹999	₹1.44	₹0.07	₹1.37
₹1,000–₹1,499	₹3.04	₹0.15	₹2.89
₹1,500–₹1,999	₹4.64	₹0.23	₹4.41
₹2,000–₹2,499	₹6.24	₹0.31	₹5.93
₹2,500–₹2,999	₹8.80	₹0.44	₹8.36
₹3,000–₹6,999	₹11.32	₹0.57	₹10.75
₹7,000–₹10,000	₹9.12	₹0.46	₹8.66

The ₹3,000–₹6,999 range is particularly notable in the referenced chart because it carries a higher gross commission than the ₹7,000–₹10,000 slab.

DigiPay Balance Enquiry Commission

Balance enquiry is another DigiPay/AEPS service.

Unlike cash withdrawal, balance enquiry does not involve transferring cash to the customer. The commission, if applicable, is therefore governed by the service's current remuneration rules rather than being calculated as a percentage of the customer's account balance.

Because service charges and commission schedules can change, VLEs should check their current DigiPay commission report before using a fixed figure for balance enquiry.

The DigiPay app provides a **DigiPay Passbook for real-time transaction view and wallet balance**, making it useful for monitoring transactions.

DigiPay Mini Statement Commission

Mini statement allows eligible customers to view recent account transactions.

DigiPay lists the mini statement among its Aadhaar-based banking services.

The exact remuneration for the mini statement should be checked against the current DigiPay dashboard/commission report because the commission schedule can be revised.

DigiPay Micro ATM Commission 2026

DigiPay also supports **Micro ATM** services.

A Micro ATM can allow customers to perform banking transactions using an authorised device and appropriate authentication.

The DigiPay application currently lists **cash withdrawal and balance enquiry through Micro ATM** among its services.

The applicable incentive can depend on the transaction amount and the current DigiPay/Micro ATM scheme.

Therefore, VLEs should not assume that the AEPS cash-withdrawal table automatically applies to every Micro ATM transaction.

DigiPay DMT Commission 2026

DMT means Domestic Money Transfer.

It allows customers to send money to bank accounts through an authorised service point.

DigiPay currently lists Domestic Money Transfer as one of its available services.

DMT earnings are generally different from AEPS earnings because the transaction involves a money-transfer service and associated charges/commission structure.

A simple way to understand it is:

Customer transfer → DMT service → applicable charge/commission → VLE earnings

The exact commission should be taken from the current DigiPay DMT schedule rather than applying the AEPS rate.
